

Robot Games

You are a brilliant robot inventor ready to build any amazing robot you want - but where do you start? Here are three steps to a great robot character for your story or drawing.

WHAT BITS AND PIECES?

Use the bodies (1) and heads (2), legs (3) and arms (4) to make your own robot character. You can mix and match, have 4 arms and no head, or 2 heads and 3 legs. Find inspiration at home. Could your robot have a vacuum cleaner hose for a nose? Fryng pans for arms? Footballs for feet? A toilet brush for a head?

Or make up your own robot by filling in the blanks:

'My robot has _____ arms, _____ for legs, a _____ for a head, _____ for eyes and a _____ in the middle of its tummy.'

WHAT CRAZY ROBOT JOB?

Here are some ideas to get your imagination running wild:

- A virus-busting bot – what strange contraption would it need to stamp out tiny critters?
- A dog-walking, poop-scooping robot – but where on its bionic body would it put the bags of doggy-doo?
- An ice-cream making robot – does it squirt raspberry ripple out of its nose?

START YOUR STORY WITH A BANG

Now you're ready to send your robot on an adventure. Try these story starters:

- 'OK, so maybe I shouldn't have turned my little sister into a robot.'
- 'I heard a bang! A creak! A crash! A scream! And I looked up to see a giant metal hand reaching in through my bedroom window.'
- 'My robot unicorn was the best pretend pet any kid could have – until the day it went crazy ...'
